

CSCI 150 Lab Code of Conduct

Fall 2023, Wednesday Lab

Respect

- Be kind and understanding.
- Be patient with others and yourself.
- Be respectful of learning and personal differences.
- Solve problems without involving other students.
- Don't take out frustration on your partner.
- Be humble. Don't act like you're the only smart person.
- Respect physical boundaries.

Communication

- Try to communicate clearly and respectfully.
- Listen to your partner; give them a chance to share their ideas.
- Don't talk over each other.
- Ask, don't tell.
- Accept constructive criticism.
- Respond to texts or emails.
- Ask questions when you're confused. Don't be afraid to ask for help.

Work

- Be on time.
- Be engaged and support your partner.
- Work as a team, stay on the same page, and put in equal effort.
- Talk and agree before undoing another's work.
- Remember to rotate responsibilities!
